CORE COMPETENCIES

📈 Process Improvement

Successfully led initiative to introduce Scrum to corporate IT department of over 100. Coached and mentored other team members in Scrum ceremonies and educated product owners in Agile. Customer satisfaction on Agile-led projects increased by 23% in the first six months, benchmarked against non-Agile projects.

👥 Leadership/Innovation

Took initiative in developing concept and presenting business case for suite of marketing management and analytics projects that formed the basis of a broad multi-million dollar project to enable just-in-time analytics, historical tracking and business process improvement opportunities leading to growth in what was considered a mature business.

⚡ Risk Management

Initiated emergency project when a related, externally managed SAP implementation project stalled, saving the firm approximately \$1 million in fees.
